Re: FCC Proceeding 17-108
US Citizen in support of Net Neutrality

DOCKET FILE COPY ORIGINAL

To Whom It May Concern:

Net Neutrality is the cornerstone of innovation, free speech and democracy on the Internet. The FCC must protect Net Neutrality by enacting strong rules that keep the Internet free from blocking, censorship and discrimination and ensure that Internet service providers disclose all efforts to manage content.

Commishner Ajit Pai's plan to gut Net Neutrality is abhorrent. It will only benefit corporations and make internet unaffordable for Americans. He should be listening to the millions of Americans that have already voiced their opinions in favor of net neutrality. The FCC serves the people, so you should make a decision that would be in the best interests of the people. I strongly urge you to accomplish this by not approving Mr. Pai's plan.

Respectfully,

Nicholas Blum
